

*“It’s the little bits. That’s where
Globe scores very highly.”*

Robin Reid - Head of Group Premises and Facilities - Brit Insurance

As Head of Group Premises and Facilities at Brit Insurance, Robin Reid has his work cut out. Looking after 75,000 square feet of office space at the company’s head office in Bishopsgate, together with half a dozen regional offices – plus a new one in Amsterdam – Robin needs a reliable office furniture supplier. And in Globe Office Solutions, he believes he’s found one.

Robin takes up the story. ‘We’ve been customers of Globe more or less from day one. They’ve supplied pretty much all of the furniture in our head office, all the furniture in our regional offices, and recently fitted out our new office in Holland. What I like about dealing with Globe is the little bits. Nothing’s too small for them to deal with. And their aftercare service is something they can be proud of. If there’s an odd little issue they deal with it straight away. The response to sorting out these problems is key to me.

‘There’s another thing I like about dealing with Globe. They are suppliers, not manufacturers. This means they can order more widely for what we need, rather than me having to do it, as I would if I dealt with individual manufacturers. It gives a different angle.

‘Yes, I am very happy with the services I get from Globe Office Solutions.’
